ABOUT DECOFINE

DECOFINE is premium brand of UPVC window and door profiles that redefine the standards of elegance and durability. As a leading provider of UPVC profiles, we specialize in delivering exceptional solutions that enhance the aesthetics and performance of your residential and commercial spaces.

At Fenstar Buildtech Pvt Ltd, we understand that windows and doors play a pivotal role in creating comfortable and inviting environments. Our UPVC profiles are meticulously crafted using the finest materials and cutting-edge technology, ensuring superior quality, longevity, and functionality. With a commitment to excellence, we offer a wide range of profiles that cater to various architectural styles and design preferences.

We pride ourselves on our unwavering commitment to customer satisfaction. Our team of experts is dedicated to understanding your specific needs and providing personalized solutions that exceed your expectations. We offer professional guidance throughout the selection process, helping you choose the right profiles to achieve your desired aesthetic and performance goals.

DECOFINE UPVC

Introducing DECOFINE premium UPVC window and door profiles that offer a winning combination of energy efficiency, durability, weather resistance, and low maintenance.

Energy Efficiency

DECOFINE UPVC profiles are renowned for their outstanding thermal insulation properties. Their inherent design and composition help to minimize heat transfer, keeping your interiors warm during winters and cool during summers.

High Durability

Our UPVC profiles are highly durable and resistant to various environmental factors. They are impervious to rotting, warping, or corroding, ensuring that your windows and doors maintain their structural integrity and aesthetic appeal over time.

Weather Resistance

They are highly resistant to wind, rain, and other harsh weather conditions. Their exceptional sealing properties provide a comfortable and protected indoor environment. Additionally, they are UV-resistant, ensuring that they do not fade, discolor, or deteriorate when exposed to sunlight.

Low Maintenance

DECOFINE UPVC profiles are easy to clean and maintain, requiring only occasional wiping with a mild detergent and water to keep them looking fresh and vibrant. This convenience saves you time, effort, and maintenance costs in the long run.

These properties make them a preferred choice for homeowners and businesses alike, providing long-lasting performance, comfort, and aesthetic appeal to any space.

WHY DECOFINE ?

TRANSFORM YOUR SPACE

Our remarkable UPVC profile that combines the best of both worlds, lightweight construction and exceptional strength, making them an ideal choice for a variety of window and door applications. Experience the difference of our UPVC profiles with exceptional surface finish and brightness

LIGHT WEIGHT AND STRONG

Our UPVC profiles are lighter in weight, allowing for easier transportation, handling, and installation. Despite their lightweight nature, our UPVC profiles exhibit outstanding strength and durability. Manufactured using high-quality materials and innovative techniques, these profiles are engineered to withstand the test of time

BRIGHT AND SMOOTH FINISH

Our UPVC profiles offer an unmatched level of brightness, enhancing the natural light within your spaces and creating a sense of openness. Crafted with meticulous attention to detail, our UPVC profiles combine functionality with a captivating visual appeal, creating a seamless and luxurious look for your living or working spaces

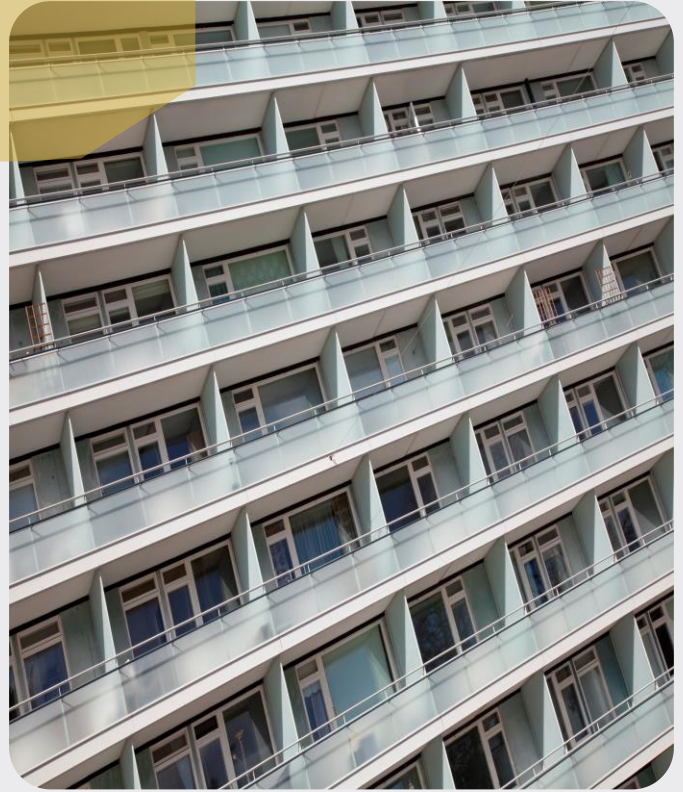

Whether you are constructing a new building, renovating your home or commercial spaces, or looking to upgrade your current windows and doors, DECOFINE is your go-to brand of premium UPVC profiles. Experience the perfect combination of style, functionality, and reliability with our extensive range of products

TAILOR MADE FOR

High-Rise Buildings

We understand the specific requirements of high-rise buildings, including structural stability, thermal insulation, noise reduction, and safety considerations, our UPVC window profiles have been engineered to meet and exceed these demands, ensuring optimal performance and peace of mind in high-rise environments. They are built to withstand strong winds, extreme temperatures, and exposure to UV radiation. The profiles retain their structural integrity over time, ensuring long-lasting performance.

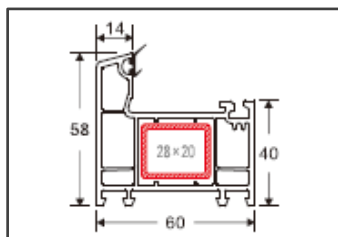

Environmentally Friendly **LEAD FREE**

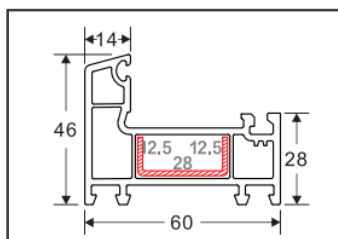

We prioritize innovation and sustainability in our UPVC profiles, aiming to reduce environmental impact while delivering superior products. Our profiles are manufactured using eco-friendly processes and materials, ensuring that you contribute to a greener future without compromising on quality or performance.

Casement Systems

PVC BOARDS

WPC BOARDS

LAMINATED
WPC BOARDS

We supply high quality PVC Boards, WPC Boards and Laminated WPC boards that are a popular choice for various applications due to their durability , versatility and low maintenance.

They can be used for interior and exterior wall cladding, flooring, partitions, ceilings, cabinets, shelves, display and sign boards etc. They provide a durable and aesthetically pleasing alternative to traditional wood or other materials.

Key features include water resistance, termite resistance, fire resistance, dimensional stability, good screw holding strength, ease of installation and eco-friendly. They offer excellent resistance to moisture and warping, making them suitable for both residential and commercial applications.
